

**“Astronomy Day from McDonald Observatory” Videoconference
Sun drawing activity sheet**

Name: _____ Date: _____

Our Science Journal. Make a drawing of the sun!

You should NEVER look up at the Sun with your eyes or with a telescope. Our star, the Sun, is very hot, and very bright! Astronomers use special equipment to learn about the Sun. Today, we will study the sun safely.

Remember, every good scientist makes careful investigations. Draw the entire sun as you see it.

Can you label its parts? Use the words below and label your drawing.

Sunspot

Sun

Photosphere
